

Jeyashri Thiagarajan – Assignment 0 Survey

Person ID	Problem	App/Website found [name]/None	Likes	Don't like	Improvements
1	Easy secure way to manage receipts from stores and single portal to track all the credit cards/bank transactions.	Mint	Entire Credit Card Transactions viewable, UI is great	Unable to add the credit card details of any other family members to view our family savings.	A single tool to view all transactions, enabling family finance budget planning. It allows adding family members' cards to track household expenses.
2	Free or affordable single news portal to stay updated on the latest technological advancements in a specific field of interest, sourced from valid scholarly articles	Google Scholar / Research Gate	Access to the research and conference papers	In search of the most recent technology updates with the need for an engaging user interface	Enhance the user interface and create a dedicated page or a separate website specifically for the most recent technology updates
3	Potential struggle with managing time for education and productivity, A single app which manage time, allowed to add schedule, allows to search for study resource and can add other students to collaborate	Evernote, Any.do	Effective UI and focus more on adding and maintaining tasks and schedule	There are no attachments to study resources, and there is no link to a video	A single tool for comprehensive studying and productivity that also facilitates collaboration with other students

4	A single app that scans the ingredients and confirms if it is a healthy brand. If it is, the app shows the score. Otherwise, the app suggests an alternate brand at the store.	Yuka / Think Dirty	Yuka is a free app that allows you to scan ingredients and informs you whether they are healthy and free of toxins	Doesn't function effectively with numerous products, and its database lacks comprehensiveness.	Expanding the database and including alternative suggestions, along with personalized recommendations based on dietary needs, would prove highly beneficial
5	A Single App that takes in input of what groceries are available currently with the user and gives out recipe recommendations	Cookd, SuperCook	The UI is easy to use and impressive	Not enough options for someone with a particular allergy. Not very vegan friendly options.	Either a dedicated app for a particular cuisine and holistic app that would give multiple authentic recipes and would be great if it sends suggestions for weekly groceries also.
